

To All:

This concept is new to most of the Model A community and we hope to have it catch on here in California. We have been to a few Hub Tours and have enjoyed everyone because it is so different than what we are used to for the MAFCA and MARC meets. There is no judging, no seminars, no goody bags, just plain good ole fun with good people.

The cost of the event will cover all charges for DeLeveaga Park rental for the 5 days we need catered, Nick's restaurant buffet lunch (very nice buffet) is near Daly City a beautiful photo op for the A's overlooking the ocean, donations to La Soledad Mission, AG center, and Elk Horn Slough, Steinbeck museum, all parking costs, & train ride at Roaring Camp. 5 dinners paid and 2 lunches for the days we were unable to find a location to fit everyone for lunch. These lunches will not be home made this is a first class event. The desserts are to die for if you have not had a Gizdich pie and Marianni ice cream get ready it's the best. There are 5 days of social hours prior to the dinner and one breakfast in Monterey put on by the GRAMPA A's. The Delta A's are hosting all the happy hours. Most of the funds will be spent for you to have fun at the event and minimum costs have been calculated in for administrative costs flyer, mailings, postage, advertising, etc. We are including in each application a special made license plate for your vehicle bumper, this license plate looks like the real thing some embossing around the plate, it's made out of metal. People are very excited about this because they collect them. You will also receive a very nice name tag not the lanyards we are used to getting at the meets but a real inscribed pin on name tag. The same name tag all of our club members wear, this will allow you to be recognized as a paid participant to the event for entrance to events and meals. I have personally mapped out the tours for each day and the rides are perfect for Model A's, most back roads and very little frwy driving including rest stops within certain time constraints. This time of year is beautiful the leaves are starting to fall and the weather is not too hot not too cold. If you read John's testimonial on the bottom of the application he hit the nail on the head about this type of touring. Hope I could answer your questions and we look forward to the possibility of you joining us.

PS: The hotels we have listed range from \$55.00 a night to \$150.00 a night each hotel has a negotiated rate for the week we have tried to keep the costs down to allow everyone to come. The beach boardwalk and wharf are about a block away from the hotels and within walking distance for all.

Happy Model A'ing,
Bill Rose/SVMARC Hub Tour
